PRÓLOGO

Al presentar al público este nuevo Diccionario, los editores juzgan oportuno indicar en breves observaciones lo que hay en él de original y verdaderamente nuevo. Muchos son los libros de este género que se han dado á la imprenta, muy pocos los que no ofrecen sino repeticiones y copias serviles de precedentes Diccionarios, de los cuales no se diferencian sino en algunas añadiduras ó supresiones; pero sin llenar los vacíos de aquellos.

Nosotros hemos incluido en este Diccionario, además de las voces empleadas por los escritores clásicos de ambos países, todas las introducidas en los mejores diccionarios ingleses, comprendiendo casi todas las palabras nuevas de ciencia y arte que faltan en los diccionarios publicados hasta hoy.

Séanos ahora permitido mencionar otras ventajas del plan seguido por el autor en la redacción de este Diccionario.

Ante todo se ha esforzado, como ya hemos dicho, en hacerlo lo más completo posible, aumentándolo con la inserción de los términos técnicos de artes y ciencias nuevamente adoptados, y que se encuentran en la lectura de periódicos y obras modernas y no ha olvidado de añadir gran número de locuciones, cada vez que se han juzgado necesarias para aclarar las acepciones de las voces y traducir los idiotismos de ambas lenguas.

También hemos juzgado que fuera más cómodo el uso del Diccionario, insertando en el orden general alfabético los nombres propios de las personas y de geografía.

La pronunciación está figurada por los medios más naturales y fáciles de comprender, sustituyendo á los signos fonéticos las letras y diptongos españoles que tienen más analogía con los sonidos ingleses, marcando cada palabra con el acento tónico que le corresponde.

La parte inglesa ha sido revisada por el eminente profesor de lengua inglesa del Instituto comercial de París, Don Mc LAUGHLIN.

El autor ha reunido todos los esfuerzos de su celo, todos los recursos de su experiencia, con el objeto de dar á este Diccionario toda la perfección posible: seale propicio el fallo del público estudioso y esta será la mejor recompensa de sus fatigas.

Villa Rozzol 1911.

DICCIONARIO

ESPAÑOL - INGLÉS

A

A f. (ah). A, a

A prep. (ah). To, in, at, according to, on, by, for, and of; as: *Voy á Madrid*, I am going to Madrid. *Á la Inglesa*, in the English fashion. *Á las ocho*, at eight o'clock. *Á ley de Castilla*, according to the law of Castile. *Vino á pie*, he came on foot. *Quien á hierro mata, á hierro muere*, he who kills with the sword, dies by the sword. *Dos á dos*, two by two. *¿Como vale la fanega? á treinta reales*, for how much a bushel? for thirty reals. *Este vaso huele á vino*, this glass smells of wine. A coalesces with the masculine article *el*, and instead of *á el*, as anciently used, *al* is now written, as: *Al Rey*, to the king. This masculine article is also used before the infinitive mood of verbs taken substantively, as: *Al amanecer*, at the break of day. Before the infinitive mood, and at the beginning of a sentence, it has sometimes a conditional sense, as: *Á decir verdad*, if we must speak the truth. A verb of movement followed by an infinitive governs the preposition *á*: *Vamos á pasear*, let us take a walk. It points out the person in whom the action of the verb terminates, and then is placed before the accusative or objective case, as: *Amo á Pedro*, I love Peter. *Á* is frequently used adver-

bially, as: *Á deshora*, unseasonably. *Á la verdad*, truly. *Á lo menos*, at least. *Á sabiendas*, knowingly. *Á veces*, sometimes.
